

## **HPN HHIC Meeting 5/24/18**

**Neighbor attendees:** Jacqueline Lindauer, Mike Thompson, Wayne Willis

**HH Attendees:** Mike Zanghi, Wendy Boyce, Maureen Malone

### **Agenda:**

- HH Update on Smoking
- Bellevue Planting Meeting Review
- Rockingham Sidewalk
- Mt. Vernon Cut Out
- OR Committee Trash Pick-up day
- Landscape Masterplan
- HH Water Supply
- Other Issues

### **Update on Smoking**

- Same as last month.
  - Dr. Mendoza has recused himself since he is a URMC employee and Maureen is in touch with the Monroe Co. DOH to get this moving forward.
- Neighbors say, now that the weather is nice, employees are now sitting on private property on Rockingham.
  - Maureen – HH is sending out reminders about where to smoke and we will amp up our reminders.
- Neighbors ask that the hospital send out a reminder that curb sitting is dangerous
  - Maureen – HH will send out a seasonal reminder about the curb sitting as well. In the meantime, HH will continue to press the Monroe Co. DOH about the smoking hut.
- Maureen will call Dr. Mendoza and see what he recommends on moving this forward given the time of year.

**Action item: Maureen will email Mike T tomorrow after hearing from Dr. Mendoza**

### **Bellevue Planting Meeting Review**

- Mike Z says HH has lined up a contractor that says they can get started at the end of June.
- Neighbors ask who will be in charge of the plants.
  - Mike Z says it will be a shared effort between neighbors at HH.
- Neighbors ask what decisions were made about what will be planted.
  - Mike Z says most of the plan that was presented to neighbors originally will be planted. HH won't go onto 27 Bellevue's front yard so it will end around the fire hydrant and there will be a few plants along the driveway.
- Neighbors say Bellevue planting meeting was very positive. The only open question is who's responsible for maintenance of the area. Neighbors want to make sure plants will be low maintenance.
  - Mike Z says plants were selected because they were hardy and have good salt tolerance.

- Neighbors ask if the City of Rochester is involved at all.
  - Mike Z sent them the plans after they requested them. They had no problem with them.

### **Rockingham Sidewalk**

- Mike Z met with the city engineer last year and asked them to fix it. They put black top in spots. They said they would replace the sidewalks this year so the maintenance manager is reaching out to the city engineer to make sure that's the case.
  - Neighbors say they'll reach out as well to reinforce the message.

### **Mt. Vernon cut out**

- Mike Z asks for update from neighbors who are looking to limit parking times in the cut out.
  - Jackie says she has a few more houses to hit up and then she'll be ready to bring it to the city.
  - She is doing Alpine to Rockingham.

### **OR Community Trash pick-up day**

- On Saturday July 14 at 9:30 a.m., volunteers from HH's OR will be picking up trash in the neighborhood as a community service project
  - Neighbors also recommend School 12 volunteering if anyone is interested.

### **Landscape Masterplan Update**

- Mike Z. says HH's plan is to put more locust trees along parking lot.
- Adding more planting as screening on Rockingham is in the master plan, HH will be taking a look at that again.

### **Water Supply**

- Mike Z says that recently, HH's water supply feed off of Rockingham had an issue.
  - HH had it turned off.
  - Water Authority says HH needs to either do a bunch of work on Rockingham or bring the service in from Mt. Vernon and up to where the boiler is.
  - HH will most likely do the Mt. Vernon route.
- HH will communicate any changes through the construction blog. It will probably take a week total.

**Next Meeting: Thursday, June 28 at 5:30pm in Gleason**
